REASONS FOR ALLOWANCE

Election/Restrictions

1. Applicant's election with traverse of claims 3, 4, 11-16, 18, 20 and 22 in the reply filed on 10/29/2010 is acknowledged. The traversal is on the ground(s) that "no unduly extensive or burdensome search would be required to examine the various claims of the noted species in the same application." This is found persuasive and therefore, the Election/Restriction Requirement is now withdrawn. Claims 1-22 are now examined.

2. The following is an examiner's statement of reasons for allowance:
References Ghiasi (US 2010/0067567), Tonietto et al (US 2009/0190649) and Moriya et al (US 2007/0083362) are cited because they are pertinent to the method and apparatus for coding/decoding. However, none of the cited references teaches or suggests spectrum coding apparatus comprising, in combination, the arrangements of an acquisition section that acquires a spectrum whose frequency band is at least divided into a low-frequency band and high-frequency band; an estimation section that estimates the shape of the spectrum of said high-frequency band using a filter having the spectrum of said low-frequency band as an internal state; a first coding section that codes a coefficient indicating the characteristic of said filter; and a second coding section that codes an outline of the spectrum determined based on said coefficient as recited in claim 1 and similar limitations as recited in claim 5 and further limitations of their dependent claims 2, 6-10, 17, 19 and 21. Moreover, the cited references fail to teach a spectrum decoding apparatus comprising, in combination, the arrangements of

a first decoding section that decodes a coefficient indicating a filter characteristic from coding information; an acquisition section that acquires a spectrum in a low-frequency band out of a spectrum whose frequency band is at least divided into a high-frequency band and low-frequency band; a generation section that generates an estimated spectrum of the spectrum of said high-frequency band using a filter having the spectrum of said low-frequency band as an internal state; and a second decoding section that decodes an outline of a spectrum determined based on said decoded coefficient as recited in claim 3 and similar limitations as recited in claim 11 and further limitations of their dependent claims 4, 12-16, 18, 20 and 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Don N. Vo whose telephone number is (571) 272-3018. The examiner can normally be reached on Mon-Fri (9:00AM - 6:00PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, MOHAMMAD GHAYOUR can be reached on (571) 272-3021. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
